STUDENT NIGHT

Come one – come all! It's that time of year again. Our February meeting is our annual Student Night. We have three outstanding presentations from undergraduate and graduate students from the Colorado School of Mines and South Dakota School of Mines and Technology, Rapid City, SD. Abstracts for each of the student presentations are included later in the newsletter!

In addition, we have again had an overwhelming response from local companies, suppliers, and service providers to exhibit their services and products at the meeting. A preliminary list of exhibitors is also included later in the newsletter!

Please note the venue change for this meeting. We have searched high and low for a location that will allow more space for the exhibitors as well as maintaining an intimate atmosphere to meet new people and provide a comfortable setting for the dinner and presentations. After much searching, the **FOOTHILLS CHAPEL** won hands down! The location of **FOOTHILLS CHAPEL** is shown on the map included in the newsletter.

Please join us for what should be the most rewarding and enjoyable student night yet!
