

Association of Environmental and Engineering Geologists **Friday meeting at AEG Headquarters**

MEETING DATE

FRIDAY
January 22TH, 2009

TIME

6:00 p.m. Social Hour
6:30 p.m. Dinner
7:30 p.m. Good Times

LOCATION

AEG Headquarters
3773 Cherry Creek
Dr. North, Suite 290
Denver, Co 80209
Room 205
See Map Below

COST

\$25 Members
\$27 Non-members

RESERVATIONS

meetings@aeqrms.org
or
WWW.AEGRMS.ORG

**BY NOON,
TUESDAY
JANUARY 19TH
AT 4 PM**

Environmental Consulting – Where We’re at and Where We’re Going.

Duane Kreuger, Geotechnology Inc.

Environmental regulations keep changing, partly due to ever-improving technology and partly due to public perception and political climate. Decisions regarding environmental consulting are generally driven by compliance with environmental regulations (federal, state and local), business risk, and concerns regarding public health & the environment. Some of the major federal regulations governing environmental projects fall under the jurisdiction of United States Environmental Protection Agency (USEPA) and the Occupational Safety & Health Administration (OSHA). States sometimes enter into agreements with federal agencies on certain environmental issues or they develop their own legislation. Between states, environmental regulations can be very similar (asbestos for example) or they can be completely different (underground storage tanks-USTs.) Examples of common environmental projects include, Phase I environmental site assessments (ESAs), Phase II ESAs risk-based assessments, asbestos and lead-based paint inspections, hazardous materials surveys, wetlands delineations, noise and indoor air quality surveys, and air emissions permitting and monitoring. Examples of recent projects will be used to discuss a variety of environmental issues of concern to the environmental consultant. Current and future environmental projects will include such things as regulated spill prevention, control and countermeasures (SPCC) plan preparation, increased focus on indoor air quality, mold and industrial safety, compliance, carbon sequestration and greenhouse gas emissions reduction.

Upcoming Meetings

February 11	AEG-RMS Section Meeting Speaker: Jim McCalpin Topic: A 3-year study on a landslide in Mancos Shale at Crested Butte	CSM Berthoud Hall
March 26 (FRIDAY!)	AEG-RMS Student Night	CSM Berthoud Hall
April 8	AEG-RMS Section Meeting Speaker: Mike West , Michael W. West & Associates Topic: TBD	CSM Berthoud Hall
May 13	AEG-RMS Section Meeting & Family Night Speaker: Vince Matthews, Colorado Geological Survey Topic: TBD	CSM Berthoud Hall

Congressional Visits Need Citizen Geoscientists

Please come to Washington DC in April and/or September, 2010 for organized group visits with policymakers in the U.S. Congress.

Decision makers need to hear from geoscientists. Become a citizen geoscientist and join many of your colleagues for a workshop at AGU headquarters followed by a day conducting visits with Members of Congress or congressional staff on Capitol Hill.

The visits will focus on the importance of geoscience research and development and geoscience education. Geoscientists will speak for these shared concerns with a unified message and can enhance the message by using examples from their professional work and experiences.

Science-Engineering-Technology Congressional Visits Day

April 28-29, 2010

Geosciences Congressional Visits Day

September 21-22, 2010

AGU and the American Geological Institute (AGI) support Congressional Visits Days in partnership with many other science and engineering societies.

For more information or to sign up, please contact:

Elizabeth Landau, AGU Public Affairs, elandau@agu.org

Linda Rowan, AGI Government Affairs, rowan@agiweb.org
